

## “Magic Wand” Aluminium Venetian Blinds 16 & 25mm

MAGIC WAND  
FOR VENETIAN  
BLINDS

Venetian Blinds are normally raised and lowered by the use of cords. As the blinds are raised the cords are gathered into special clip-receptors.

The **“Magic Wand”** simplifies the operation of Venetian Blinds. As they are normally raised and lowered by cords this attractive system has the cords neatly gathered into a special clip-receptors. Its attractiveness adds elegance to any window especially large windows when long cords are required, keeping them untangled and in place the simple rotation of the wand gives optional visual, partial or no visual contact for the user. And with a simple touch and pull down movement “magic” the blinds is dropped.

The **“Magic Wand” for Venetian Blinds** simplifies their operation even more.

## TECHNICAL SPECIFICATIONS & FEATURES

■ **Aluminium Blinds** are 16mm, 25mm wide with electrostatic paint that is extremely resistant to humidity and ultraviolet rays.

■ **The blinds** are opened and closed with the use of a lever made of transparent material, whose length extends to the height of the opening.

■ The 25x24mm hanging rail is specially constructed of strong metal 0,4mm thick for blinds 16mm and 25mm wide. It is u-shaped with the edges folded inwards in order to ensure a stronger profile for more secure holding. Before the hanging rail is shaped, it is specially coated and enamelled to ensure greater durability of the paint and rust resistance.

■ **The bottom rail** is 19x10mm for blinds 16mm and 25mm wide.

■ **The locking mechanism.** A spring is incorporated at the top, which regulates the smooth and uniform raising and lowering of the blinds and prevents jerky movements and lop-sided raising or lowering.

■ **The lifting cords** are 1.4mm in diameter, woven of synthetic fibre with a special core to ensure the smooth operation of the Venetian Blinds.

■ **The supports** are made of reinforced metal to ensure that the blinds can be safely and easily removed for cleaning. They are available in five different types, so that the blinds can be placed anywhere required.

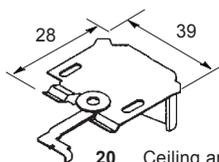

■ **The ladder-braids** for Venetian Blinds are 13.2x28mm for 16mm, 21.5x28mm for 25mm with reinforced core, and an end-point consisting of 4 yarns.

Number of Brackets	
Width of Blinds (cm)	Brackets
40 - 120	2
121 - 200	3

Maximum and Minimum Dimensions		
(cm)	16mm	25mm
