

Curtain Rails

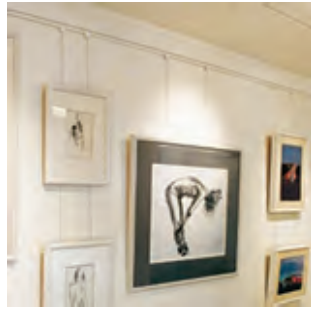

Metal and Aluminium Curtain Rails are an essential supplement for all curtains and are necessary to ensure the right fit and function.

Depending on the shape of the opening for which metal curtain rails are required, the rails can be straight polygonal or curved.

Specialized areas such as the rooms of:

- Hospital / Clinics
- Hotels
- Theatres
- Art Galleries
- Schools
- Homes
- Laboratory

The right choice of rail system is certainly extremely important in order to make sure that the rails will ensure smooth and easy movement of the curtains.
