

## Sliding Panels

**Sliding Panel Blinds** are an elegant, practical, modern and versatile shading solution for larger windows or patio doors and may be used as a room divider.

To control light, reduce glare and increase privacy, simply slide the panels to the required position.

Available in a big variety of natural looking and translucent fabrics, blackout fabrics or woven material, the panel blinds will transform the look of any room with their cultured, sophisticated appearance.

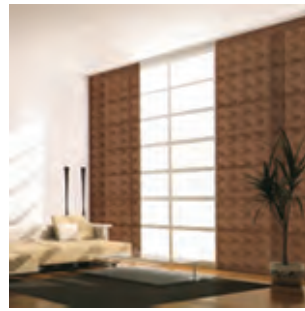

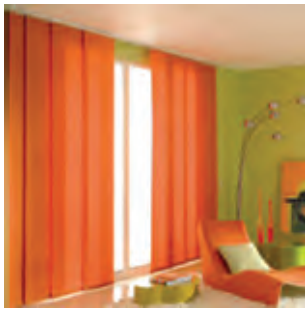

The panel track headrails are available in 2-6 ways allowing up to 6 panels in various widths.

Fabric panels are fixed with Velcro (loop tape) onto sliders on the track, giving the possibility of easy clean or replacement.

The blinds encompass large panels of fabric which stack neatly behind one another when open, allowing maximum light into the room.

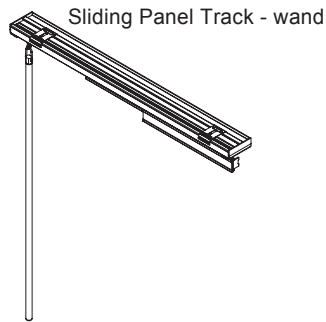

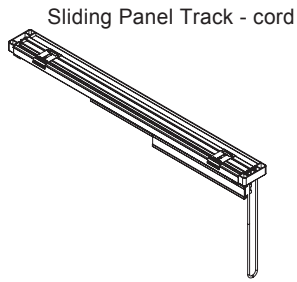

Operated by a cord or wand control, the panels can be all drawn to one side or split either side, offering the possibility to control the light according to the need of partial or full shading of each room.

 • **Oeko-tex Standard**  
Environmentally friendly. Tested for harmful substances.

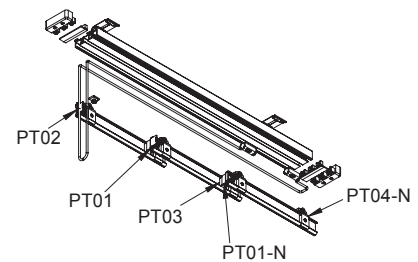

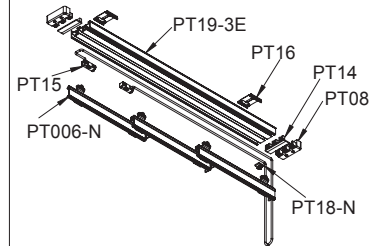

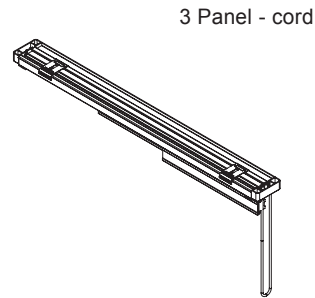

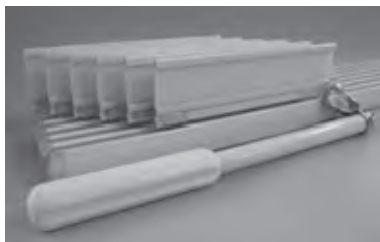

**SLIDING PANELS**  
System 2-6 channels  
Available in Anodised

**SLIDING PANELS**  
System 2-5 channels  
Available in White
