

## **Sliding Mosquito net by Euroblinds** **This is why we are the best choice!**

- Ensures ventilation of indoor areas by preventing the entry of unwanted insects
- Used in Sliding two-leaf, three-leaf and four-leaf, windows and doors
- In the two-leaf openings, the mosquito net, covers half of their surface so that dragged to the right or left, respectively.
- In the three-leaf openings it covers one-third of their surface and works accordingly, with the other two leaves closed
- In the four-leaf openings it covers one-quarter of their surface and works accordingly, with the other three leaves closed
- Can be installed in Muskita and Rabel aluminum series with mosquito net provision
- In case there is no provision, an additional guide is placed at the top and bottom of the opening to make it possible to place and use a mosquito net
- Maximum mosquito net width 160cm
- Maximum mosquito net height 300cm
- For a height greater than 230cm, a horizontal intermediate divider is placed in the frame
- Available in various colors
